

Tax Rate Lookup

Destination-based Sales Tax Tools

SALES TAX CHANGE EFFECTIVE JULY 1, 2008, FOR SHIPMENTS AND DELIVERIES

Find sales tax rates quickly and easily

The Tax Rate Lookup Tool, available on our web site at <http://taxrates.dor.wa.gov>, will help you find tax rates and location codes for locations within Washington State. It has an optional calculator feature that returns the tax due and total due for any sale along with a confirmation code. You can use the address, map, or latitude/longitude lookup to see if a location is inside or outside a Regional Transit Authority boundary, a Public Transportation Benefit Area, a Community Empowerment Zone, or Indian Country. With the exception of the map and calculator features, this tool is also accessible by handheld devices such as PDAs, Blackberries, and cell phones.

How do I use it?

There are several different ways to find a tax rate. You can search by street address, ZIP+4, map, or latitude/longitude.

To search by street address or ZIP+4:

1. Enter the street address, city, and zip code or ZIP+4 only.
2. Click "Search."
3. The result will appear at the bottom of the screen.

To search using the map:

1. Click on the Map search tab.
2. Click and drag a box around the area you wish to display. Continue to do this until you pinpoint the location on the map.
3. Select the "i" from the toolbar and click on the exact location.
4. The results will appear at the bottom of the page below the map.

To search by latitude/longitude:

1. Enter latitude in decimal degrees.
2. Enter longitude in decimal degrees.
3. Click "Search."
4. The result will appear at the bottom of the screen.
